

## Year 1 Topic Homework Summer 1 – Grow Your Own

Due back by- Friday 22nd May ( or earlier if you complete it)

This half term we are focusing on science, art and geography skills for our topic 'Grow your own'. We would like you to be creative around this theme!

You could:

- Paint, draw or collage a picture of your garden or favourite plant.
- You could research an artist that was inspired by nature and create some of your own art e.g. Van Gogh Sunflowers.
- Design or make a plant pot. You could even grow your own plant in it!
- You could take photos or draw different type plants in your garden/ local area to create a plant guide.
- You could write instructions to help grow your own magic beanstalk.

We can't wait to see what you make and remember to have fun!
